INDEX

A

ABERLE, S. B. D., Continual cornified vaginal cells as an index of avitaminosis A in rats..... 1
Acids, fatty, possibility of conversion of, to glucose in the animal body (Mitchell) 473
Alcohol, ethyl, metabolism of (Carpenter) 205
Alveolar air, parallel determination of and respiratory quotient (Carpenter and Lee)..... 37
Apples, yellow and white tissued, vitamin A content of (Potter)..... 99
Apricots, carotene equivalent of (Morgan and Madsen)..... 83
—, pears and peaches, effect of on urinary acidity (Saywell)..... 397
Avitaminosis A in rats (Aberle)..... 1

B

BARNUM, G. L. (see Ellis, N. R.)..... 443
Basal metabolic rate, variation of per unit surface area with age (Bruen)..... 383
Bergman, H. C. (see MacKay, Eaton M.). 515
Beryllium "rickets" (Guyatt *et al.*)..... 313
Bethke, R. M., P. R. Record and D. C. Kennard. The comparative antirachitic efficiency of irradiated ergosterol, irradiated yeast, and cod liver oil for the chicken..... 413
— (see Wilder, O. H. M.)..... 407
Blood alkali reserve, effect of cranberries on (Fellers *et al.*)..... 455
Blumberg, Harold and O. S. Rask, The spectrographic analysis of milk ashes. 285
Branion, H. D. (see Guyatt, B. L.)..... 313
Brown, Helen B. (see Shohl, Alfred T.)... 271
Bruen, Curtis, Variation of basal metabolic rate per unit surface area with age. II. The pubertal acceleration.... 383
Byerly, Theodore C. (see Ellis, N. R.) 243 and (Titus, Harry W.)..... 127
—, —, Harry W. Titus and N. R. Ellis, Effect of diet on egg consumption. II. Mortality of embryos in eggs from hens on diets containing protein supplements of different origin..... 225

C

CALCIFICATION of tissues by excessive doses of irradiated ergosterol (Reed *et al.*)..... 371
Calcium and phosphorus in the development of the turkey embryo (Insko and Lyons)..... 507
—, high and low-carrying wheats, nutritive value of (Greaves and Greaves).. 113
— retention on a diet containing leaf lettuce (Mallon *et al.*)..... 303
Carotene equivalent, comparison of apricots as sources of vitamin A (Morgan and Madsen)..... 83
Carpenter, Thorne M., Editorial review, The effect of muscular exercise on the metabolism of ethyl alcohol..... 205
—, and Robert C. Lee, The parallel determination of the respiratory quotient and alveolar air of man in the post-absorptive condition..... 37
—, and Robert C. Lee, The effect of glucose and of fructose on the human respiratory quotient and alveolar air... 55
Chapman, Edna E. (see Shohl, Alfred T.). 271
Chemical nature of enzymes (Sumner).... 103
Chicken, comparative efficiency of irradiated ergosterol, irradiated yeast and cod liver oil, for (Bethke *et al.*)..... 413
Closs, Karl (see MacKay, Eaton M.)..... 151
Cod liver oil, antirachitic efficiency of for the chicken (Bethke *et al.*)..... 413
Comparative antirachitic efficiency of irradiated ergosterol, irradiated yeast, and cod liver oil for the chicken (Bethke *et al.*)..... 413
— effect of tomato and orange juices (Saywell and Lane) 263
Comparison of apricots and their carotene equivalent as sources of vitamin A (Morgan and Madsen)..... 83
Continual cornified vaginal cells as an index of avitaminosis A in rats (Aberle) 1
Copper, iron and manganese content of fish (Parks and Rose)..... 95

Copper, stimulating action of, on erythropoiesis (Stein and Lewis)..... 465
Cranberries, effect of on urinary acidity and blood alkali reserve (Fellers *et al.*)..... 455

D

Darby, Clara R. (see Mallon, Marguerite G.)..... 303
Diet(s) containing leaf lettuce, calcium retention on (Mallon *et al.*)..... 303
—, — protein supplements, mortality of embryos in eggs from hens on (Byerly *et al.*)..... 225
— effect of, on egg composition (Titus *et al.*).....127, 225, 243
—, fluorine in (Sharpless and McCollum) 163
—, high fat, effect of, on the respiratory metabolism and ketosis of man (Hawley *et al.*)..... 523
—, influence of the preceding, upon the rate of glucose absorption and glycogen synthesis (MacKay and Bergman)..... 515
—, relation of to goiter (Levine *et al.*).325, 347
—, rickets-producing, evaluation of phosphorus deficiency of (Shohl *et al.*).... 271
Dietary technic for the study of goiter in the rat (Levine *et al.*)..... 325
Digestibility, apparent, of fresh whole and powdered whole milk (Nevens and Shaw)..... 139
Dillman, L. M. (see Reed, C. I.).....355, 371
Dogs, normal, effects of irradiated ergosterol on the metabolism of (Reed *et al.*)..... 355

E

Editorial Review. Other factors than vitamins B and G in the vitamin B complex (Lewis)..... 559
— —, The chemical nature of enzymes (Sumner)..... 103
— —, The effect of muscular exercise on the metabolism of ethyl alcohol (Carpenter)..... 205
— — The possibility of the conversion of fatty acids to glucose in the animal body (Mitchell)..... 473
Effect(s) of cranberries on urinary acidity and blood alkali reserve (Fellers *et al.*)..... 455
— of dairy manufacturing processes upon the nutritive value of milk. II. The apparent digestibility of fresh whole milk and of powdered whole milk (Nevens and Shaw)..... 139
— of diet on egg composition. I. Partial chemical analyses of eggs produced by pullets on different diets (Titus *et al.*) 127
II. Mortality of embryos in eggs from hens on diets containing protein supplements of different origin (Byerly *et al.*) 225
III. The relation of diet to the vitamin B and the vitamin G content of eggs, together with observations on the vitamin A content (Ellis *et al.*)..... 243
— of glucose and of fructose on the human respiratory quotient and alveolar air (Carpenter and Lee)..... 55
— of irradiated ergosterol on the metabolism of normal dogs (Reed *et al.*)..... 355
— of pears, peaches, apricots and dried sulfured apricots on urinary acidity (Saywell)..... 397
— of vitamins B and G on the consumption and utilization of food (Graham and Griffith)..... 195
Egg(s) composition, effect of diet on (Titus *et al.*).....127, 225
—, iodine content of, as affected by the ration (Wilder *et al.*)..... 407
—, partial chemical analyses of, produced by pullets on different diets (Titus *et al.*)..... 127
Ellis, N. R., David Miller, Harry W. Titus and Theodore C. Byerly, Effect of diet on egg composition, III. The relation of diet to the vitamin B and vitamin G content of eggs, together with observations on the vitamin A content..... 243
—, L. J. Palmer and G. L. Barnum, The vitamin content of lichens..... 443
—, (see Byerly, Theodore C.) 225 and (Titus, Harry W.)..... 127
Embryos, mortality of from hens on diets containing protein supplements of different origin (Byerly *et al.*)..... 225
Enzymes, chemical nature of (Sumner)... 103
Ergosterol, irradiated, calcification of tis-

sues by excessive doses of, (Reed *et al.*) 371
Ergosterol, irradiated, effects of on the metabolism of normal dogs (Reed *et al.*) 355
—, —, efficiency of for the chicken (Bethke *et al.*) 413
Erythropoiesis, stimulating action of copper on (Stein and Lewis) 465
Evaluation of the phosphorus deficiency of the rickets-producing diet (Shohl *et al.*) 271
Exercise, muscular, effect of on metabolism of ethyl alcohol (Carpenter) 205

F

Factors which determine renal weight. XIII. The heat production of the rat as varied by thyroid administration (MacKay *et al.*) 151
XIV. The relative influence of amino-urea and protein nitrogen in the diet (MacKay) 157
Fat, gluconeogenesis from (Hawley *et al.*) . 523
Fellers, C. R., B. C. Redmon, and E. M. Parrott, Effect of cranberries on urinary acidity and blood alkali reserve .. 455
Fish, copper, iron and manganese content of (Parks and Rose) 95
Fluorine in the diet (Sharpless and McCollum) 163
Food consumption and utilization, effect of vitamins B and G on (Graham and Griffith) 195
Francis, Lillias D., Arthur H. Smith and Lafayette B. Mendel, Growth of rats fed high protein rations supplemented by different amounts and combinations of vitamins B(B_1), G(B_2), and B complex 493
Fructose, and glucose, effect of on the human respiratory quotient and alveolar air (Carpenter and Lee) 55

G

Geiger, Beatrice, J., Harry Steenbock and Helen T. Parsons, Lathyrism in the rat 427
Gluconeogenesis from fat, possibility of (Hawley *et al.*) 523
Glucose absorption and glycogen synthesis, influence of preceding diet upon (MacKay and Bergman) 515
— and fructose, effect of on human respiratory quotient and alveolar air (Carpenter and Lee) 55
—, possibility of conversion of fatty acids to (Mitchell) 473
Glycogen synthesis, and glycose absorption, influence of preceding diet upon (MacKay and Bergman) 515
Goiter, relation of diet to (Levine *et al.*) 325, 347
Graham, Claire E., and Wendell H. Griffith, Studies on Growth. I. Growth factors in liver 179
II. The effect of vitamins B and G on the consumption and utilization of food 195
Greaves, Ethelyn O. and J. E. Greaves, Nutritive value of high and low calcium-carrying wheat 113
Greaves, J. E. (see Greaves, Ethelyn O.) .. 113
Griffith, Wendell H. (see Graham, Claire E.) 179, 195
Growth factors in liver (Graham and Griffith) 179
— of rats fed high protein rations supplemented by different amounts and combinations of vitamins B(B_1), G(B_2), and B complex (Francis *et al.*) . 493
—, studies on (Graham and Griffith) . 179, 195
Guyatt, B. L., H. D. Kay and H. D. Branion, Beryllium "rickets" 313

H

Hawley, Estelle E., Carroll W. Johnson, and John R. Murlin, The possibility of gluconeogenesis from fat. II. The effect of high fat diets on the respiratory metabolism and ketosis of man 523
Heat production of the rat as varied by thyroid administration (MacKay *et al.*) 151

I

Influence of the preceding diet upon the rate of glucose absorption and glyco-

gen synthesis (MacKay and Bergman)..... 515
Insko, W. M. Jr., and Malcolm Lyons, Calcium and phosphorus in the development of the turkey embryo..... 507
Iodine content of hens' eggs as affected by the ration (Wilder *et al.*)..... 407
— requirement of the rat (Levine *et al.*).. 347
Iron, copper and manganese content of fish (Parks and Rose)..... 95
Is fluorine an indispensable element in the diet? (Sharpless and McCollum)..... 163

J

Johnson, Carroll W. (see Hawley, Estelle E.)..... 523
Johnson, L. Margaret, (see Mallon Marguerite G.)..... 303

K

Kay, H. D. (see Guyatt, B. L.)..... 313
Kennard, D. C. (see Bethke, R. M.)..... 413
Ketosis, effect of high fat diets on, in man (Hawley *et al.*)..... 523
Klein, R. I. (see Reed, C. I.)..... 371

L

Lane, E. W. (see Saywell, L. G.)..... 263
Lathyrism in the rat (Geiger *et al.*)..... 427
Lee, Robert C. (see Carpenter, Thorne M.).....37, 55
Lettuce, leaf, calcium retention on diet containing (Mallon *et al.*)..... 303
Levine, Harold, Roe E. Remington and Harry von Kolnitz, Studies on the relation of diet to goiter. I. A dietary technic for the study of goiter in the rat..... 347
II. The iodine requirement of the rat.. 347
Lewis, Robert C. Editorial review. Other factors than vitamins B and G in the vitamin B complex..... 559
— — (see Stein, Hermann B.)..... 465
Lichens, vitamin content of (Ellis *et al.*). 443
Liver, growth factors in (Graham and Griffith)..... 179
Lyons, Malcolm (see Insko, W. M. Jr.)... 507

M

MacKay, Eaton M. and H. C. Bergman, The influence of the preceding diet upon the rate of glucose absorption and glycogen synthesis..... 515
—, —, Francis M. Smith and Karl Closs, Factors which determine renal weight. XIII. The heat production of the rat as varied by thyroid administration.. 151
XIV. The relative influence of amino, urea and protein nitrogen in the diet. 157
Madsen, Evelyn O. (see Morgan, Agnes Fay)..... 83
Mallon, Marguerite G., L. Margaret Johnson and Clara R. Darby, The calcium retention on a diet containing leaf lettuce..... 303
Manganese, copper and iron content of fish (Parks and Rose)..... 95
McCollum, E. V. (see Newell, John M.) 289 and (Sharpless, George R.)..... 163
Mendel, Lafayette B. (see Francis, Lillias D.)..... 493
Metabolic rate, basal, variation of, per unit surface area with age (Bruen)... 383
Metabolism, basal, standards for predicting (Stark)..... 11
— of ethyl alcohol, effect of muscular exercise on (Carpenter)..... 205
— of normal dogs, effect of irradiated ergosterol on (Reed *et al.*)..... 355
—, respiratory, effect of high fat diets on (Hawley *et al.*)..... 523
Milk ashes, spectrographic analysis of (Blumberg and Rask)..... 285
—, fresh whole and powdered whole, digestibility of (Nevens and Shaw)... 139
—, nutritive value of, effect of dairy manufacturing processes upon (Nevens and Shaw)..... 139
Miller, David (see Ellis, N.R.)..... 243
Mitchell, H.H., The possibility of the conversion of fatty acids to glucose in the animal body..... 473
Morgan, Agnes Fay and Evelyn O. Madsen, A comparison of apricots and their carotene equivalent as sources of vitamin A..... 83
Murlin, John R. (see Hawley, Estelle E.) 523

N

NEVENS, W. B., and D. D. Shaw, The effect of dairy manufacturing processes upon the nutritive value of milk. II. The apparent digestibility of fresh whole milk and of powdered whole milk 139
Newell, John M and E. V. McCollum, Studies on the rôle of zinc in nutrition 289
Nutrition, studies on the rôle of zinc in (Newell and McCollum) 289
Nutritive value of high and low calcium-carrying wheat (Greaves and Greaves) 113

O

ORANGE and tomato juices, comparative effect of (Saywell and Lane) 263
Other factors than vitamins B and G in the vitamin B complex (Lewis) 559

P

PALMER, L. J. (see Ellis, N. R.) 443
Parallel determination of the respiratory quotient and alveolar air of man in the post-absorptive condition (Carpenter and Lee) 37
Parks, Thomas B, and Embree R. Rose, The copper, iron and manganese content of fish 95
Parrott, E. M. (see Fellers, C. R.) 455
Parsons, Helen T. (see Geiger, Beatrice J.) 427
Pears, peaches and apricots, effect of on urinary acidity (Saywell) 397
Phosphorus, and calcium, in the development of the turkey embryo (Insko and Lyons) 507
— deficiency, of rickets-producing diet (Shohl *et al.*) 271
Possibility of gluconeogenesis from fat. II. The effect of high fat diets on the respiratory metabolism and ketosis of man (Hawley *et al.*) 523
— — the conversion of fatty acids to glucose in the animal body (Mitchell) 473
Potter, Myra T., The vitamin A content of yellow tissued and white tissued apples 99
Protein nitrogen, effect of on renal weight (MacKay) 157
— rations, high, growth of rats on (Francis *et al.*) 493
Pubertal acceleration in basal metabolic rate (Bruen) 383

R

RASK, O. S. (see Blumberg, Harold) 285
Rat(s) avitaminosis A in (Aberle) 1
—, dietary technic for study of goiter in (Levine, Remington and von Kolnitz) 325
—, goiter in, dietary technic for study of (Levine *et al*) 325
—, growth of, fed high protein rations supplemented by different amounts and combinations of vitamins B (B_1), G (B_2) and B complex (Francis *et al.*) 493
—, heat production of, as varied by thyroid administration (MacKay *et al.*) 151
—, iodine requirement of (Levine *et al*) ... 347
—, lathyrism in (Geiger *et al.*) 427
Record, P. R. (see Bethke, R. M.) 413 and (Wilder, O. H. M.) 407
